Text :

Everyday, children spend too much time in front of television. Some of them are keen on cartoons and serials, others prefer action films or sport programmes, but nearly every one of them dislike news and documentaries. They don't like reading. They can watch TV for hours and forget their school work. At school, teachers find a lot of difficulties with the pupils who don't revise their lessons and don't do their home work.

Television offers a lot of informations, but also contains violence and destruction, so parents must control what their children watch on TV.
