Second Term Test II

Good morning ladies and gentlemen. Today we're going to visit the "Kasbah", the oldest part of Algiers. The origin of the word "Kasbah" designated the citadel that overlooked the city of Algiers.

We are going to start our journey from the south part of this medina. As you can see, in front of you there is the famous "Ketchawa" mosque built many years ago.

Going through the city, on the top of this hill, we're going to visit the mausoleum "Sidi Abderrahmane" where the famous scholar "Abderrahmane Etha'alibi" was buried. At the end, we'll finish our visit in the castle "Kasr el Rias" which is a museum nowadays.
