

First name :

Second Term English TEST (2) 3AS LE**A.COMPREHENSION****Read the text carefully then do the following activities.**

Some twenty years ago,the performance of girls and boys in class was compared.Boys scored better in exams,so various mesures were introduced to improve the performance of girls ,including having girls-only classes.Now,the situation is reversed,with girls out-performing boys.

So,what has gone with boys,and what can be done about it ?It is said that the academic failure of boys is a problem which has its roots in society rather than the classroom. Girls ,more than boys ,see education as a passport to a good job.On the otherhand,young men lack confidence.They are uncertain about their place in society.Some boys grow up in families where there is no male role model to follow.Moreover,boys may learn in a different way to girls.They prefer less work with immediate results rather than projects which take more time.

*Adapted form BBC Learning English***1.Are these statements true or false ?**

- a.Today girls perform better at school than boys.
- b.Society is not responsible for boys's failure at school.
- c.Boys are less confident about their position in society.
